PROFESSIONAL SUMMARY

Production Support & Operations Engineer with 8 years of experience at Accenture keeping high-stakes Java microservices running across banking (Truist), e-commerce (Chanel), and hospitality (Marriott). Skilled in full incident lifecycle management (P1/P2 triage, root cause analysis, MTTR reduction), observability tooling (Dynatrace, Splunk, AppDynamics, Sumo Logic), and SLA and change governance. Currently expanding into AWS and platform reliability engineering. Open to SRE, Platform Engineering, Production Support, and Observability Engineering roles.

CORE SKILLS

Operations & Incident Management: P1/P2 Incident Response, Root Cause Analysis, MTTR Reduction, SLA Governance, Change Management, On-Call Support, Post-Mortem Reviews

Observability & Monitoring: Dynatrace, Splunk, AppDynamics, Sumo Logic, Synthetic Monitoring, Threshold-Based Alerting, Custom Dashboards, APM, Log Analysis

Platforms & Infrastructure: Java Microservices, AWS (Foundational), SAP (Cron/Batch), ServiceNow, Postman, SOAP UI

Methodologies & Tools: Agile/Scrum, Jira, Cross-Functional Coordination, Team Mentoring, Release Planning, Deployment Execution

PROFESSIONAL EXPERIENCE

Accenture - Custom Software Engineering, Senior Analyst | May 2017 - Jun 2025

Reliability & Operations Lead - Truist (Investment Banking) | Apr 2024 - Jun 2025

- Managed production stability and availability for Java-based Wealth & Trust microservices in a high-volume banking environment.
- Shifted the team from reactive to proactive monitoring by building Splunk dashboards separating system errors from user errors and adding threshold-based alerts, catching problems before they escalated to P1/P2.
- Led the full incident lifecycle in ServiceNow - triage, cross-team coordination, resolution, and post-mortem reviews - driving down MTTR.
- Conducted structured root cause analysis on recurring application failures and coordinated permanent fixes.
- Managed release planning and deployment execution across QA, Dev, and Ops with zero unplanned downtime during production changes.

Operations & Process Lead - Chanel (E-Commerce) | May 2023 - Mar 2024

- Replaced hourly manual webpage checks with Dynatrace synthetic monitoring simulating user journeys, cutting routine monitoring effort from ~15 min/hr to under 5.
- Oversaw production monitoring across multiple global regions supporting an e-commerce platform rollout into new markets.
- Trained and mentored junior team members on Dynatrace, log analysis, and incident triage best practices.
- Monitored and troubleshooted global scheduled batch jobs (crons) via SAP to ensure uninterrupted business processing across time zones.

Technical Operations Analyst - CIAM - Marriott (Hospitality) | Aug 2021 - May 2023

- Led an observability stack migration from AppDynamics/Sumo Logic to Dynatrace/Splunk, validating monitoring coverage continuity and ramping the team up on the new tools.
- Coordinated endpoint migrations to securely manage customer identities, user registration, and application access.
- Served as technical point of contact for onboarding new partner integrations with Marriott.com.
- Provided real-time technical support alongside development teams during critical deployment windows.

Technical Operations Analyst - Profile Services - Marriott (Hospitality) | Jun 2017 - Jul 2021

- Supported data migration and system integration across legacy platforms during the Marriott, Starwood, and Ritz-Carlton systems merger.
- Transitioned the team from manual status-checking to alert-driven monitoring, building dashboards for early degradation detection during high-traffic release windows.
- Onboarded and trained new resources on application architecture, internal support processes, and monitoring tools.

CERTIFICATIONS

- Professional Scrum Master I (PSM I) - Scrum.org, 2026 (Earned)
- AWS Certified Cloud Practitioner - Amazon Web Services (In Progress)
- ITIL 4 Foundation - Axelos (In Progress)

EDUCATION

Bachelor of Technology, Information Technology - Sri Krishna College of Engineering and Technology | 2013-2017
